ABSTRACT

This roster contains detailed data from the annual Survey of Enrollments and Degrees conducted in the 2001-2002 academic year. The roster contains data reported by physics departments in the United States for their 2000-2001 introductory course enrollments, 2000-2001 degrees, and fall 2001 undergraduate major and graduate student enrollments. Of the 768 degree-granting physics departments, 720 (94%) contributed to the data in this roster. In fall 2001, there were 5,599 juniors majoring in physics and 6,521 seniors. Of the 11,402 graduate students in physics in fall 2001, 5,807 were from foreign countries. There were 4,091 bachelor's degrees awarded in physics in 2000-2001, and 701 existing master's students. In that academic year, 1,157 PhDs were awarded in physics. The roster lists institutions alphabetically within each state. It includes enrollment and degree data for physics, physical science, and astronomy for U.S. and foreign students. (SLD)

ROSTER OF PHYSICS DEPARTMENTS WITH ENROLLMENT AND DEGREE DATA, 2001.

This roster contains detailed data from the annual Survey of Enrollments and Degrees. The survey was conducted during the 2001-02 academic year and consists of all degree-granting physics departments in the United States. Presented in this roster are the data reported by those departments for their 2000-01 introductory course enrollments, 2000-01 degrees and their fall 2001 undergraduate major and graduate student enrollments.

The introductory course enrollment totals listed for each department represent the number of students who took their first term of introductory level physics, astronomy or physical science. Departments were instructed not to include enrollments for courses that were a continuation of a sequence.

Of the 768 degree-granting physics departments, 720 (94%) contributed to the data supplied in this year's roster. Data are not presented for departments who did not contribute to the study. Some departments only supplied partial data and consequently have an incomplete entry.

Notations used in this roster:

m	Department grants a masters as its highest physics degree (N=72).
p	Department grants a PhD as its highest physics degree (N=182).
GRADUATE DEPT ONLY	Department has no undergraduate program in physics (N=7).
FIRST YEAR	This column includes graduate students who were new to the department in the fall 2001 as well as students who entered the department in the previous winter, spring and summer.
EXITING MASTERS	This column includes masters degrees from both masters-granting and doctoral-granting departments whose students are leaving that department with a masters.
—	Data for this field were not provided.

The totals presented in the table below represent all physics departments. This includes data from the responding departments as well as estimated data for the non-responding departments. These estimates were derived from a department's response to the survey in a previous year.
